

East of England Neonatal Parent Advisory Group

**Has your baby spent time on a neonatal unit?
Would you like to share your experience to help shape
neonatal services for the future?**

Then join our Parent Advisory Group!

We are a group of parents and carers whose babies were cared for on a neonatal unit. We work with the East of England Neonatal Network to drive improvements in neonatal care and are looking for new members to join our friendly group of volunteers.

We want to hear everyone's voice and welcome members from all backgrounds, including those from under-represented communities.

To find out more about our work and how to join email :
