LONG TERM VENTILATION SIMULATION DAYS

20th May 2025

4th September 2025

The East of England ODN is providing a full day of teaching, simulation and skills practice around Long Term Ventilation in Paediatrics. This course is aimed at registered nurses working with paediatric patients who may encounter Long Term Ventilation to enhance and update their skills in a safe environment

£20

What will be covered?

- Tracheostomy tapes
- Tracheostomy emergencies
- Basics of Long Term Ventilation
- Hands-on with common ventilators
- Real-life LTV scenario simulations
